

LTR has now introduced a number of new applications to improve access to College systems and support. These applications are:

Portal

<http://portal.belfastmet.ac.uk>

(this will only work when you are outside the network)

This portal site will provide all users will access to email, blackboard and home directories from home. Additional applications requiring remote access will be tested and introduced over the coming year. This site is the single point of entry to the Colleges applications and is available from home via the Logon button on the front page of the college's web site.

Intranet

<http://intranet.belfastmet.ac.uk>

All staff now have access to a redesigned staff Intranet.

Website

<http://www.belfastmet.ac.uk>

All staff and students now access to a new College website.

IT Helpdesk

<http://idesk.belfastmet.ac.uk>

This site provides all BMC users with the ability to log calls online. Accessible both internal and via the Colleges portal site users can log calls and subsequently check back to the site to review status and provide updates as appropriate.

IT Information

<http://itsupport.belfastmet.ac.uk>

This site will provide up to date status information on the Colleges network and other key applications. In addition documentation on using the college's network together with other IT Support guidelines and policy documentation will be available from this site.

Student site

<http://my.belfastmet.ac.uk>

All students now have access to their own "my site". A personalised site for each student this will now become the home page for all students and contain a number of areas including links, assignments, grades and event information.

Student email

stu0123456@student.belfastmet.ac.uk

All students will now have access to a student.belfastmet.ac.uk email address. Using their student id and the newly created student.belfastme.ac.uk domain students will have the ability to both send and receive email.
